

Side Party SS18

2018 shall be feminine and bold. Thankfully femininity can take many forms and we've joyfully explored a few interpretations of the notion.

Wide-leg yet form-fitting pants are a fundamental outfit builder - they can be combined with slinky little tank tops or vintage-inspired blouses.

We became rather obsessed with using smocking as a way to add texture and interest while making you look like Brigitte Bardot.

Dotted prints play an important role - on midi dresses, strappy jumpsuits or ruffled numbers - because the coolest women have been wearing it for decades so why stop. Gingham and florals bring a bucolic touch that will brighten up urban wardrobes.

Flashes of red and pale yellow add a whimsical side to Annie Hall silhouettes, while linen and oversized separates added the androgynous dimension essential to our interpretation of sexiness.
